Allowable Subject Matter

1. Claims 1-7, 9, 17-23 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, in that closest prior art of record Bjornson et al. (U.S. patent 6,173,210) does not disclose or suggest, alone or in combination, a business subsystem in communication with the configuring subsystem that calculates a cost for manufacturing the customized injection molding system and that determines a schedule for completing the customized injection molding system and a manufacturing subsystem in communication with the configuring subsystem that provides input for manufacturing the customized injection molding system generated by the configuring subsystem in combination with the other elements and features of the claimed invention.

The terminal disclaimer filed on January 10, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U. S. Patent 6,675,055 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
